

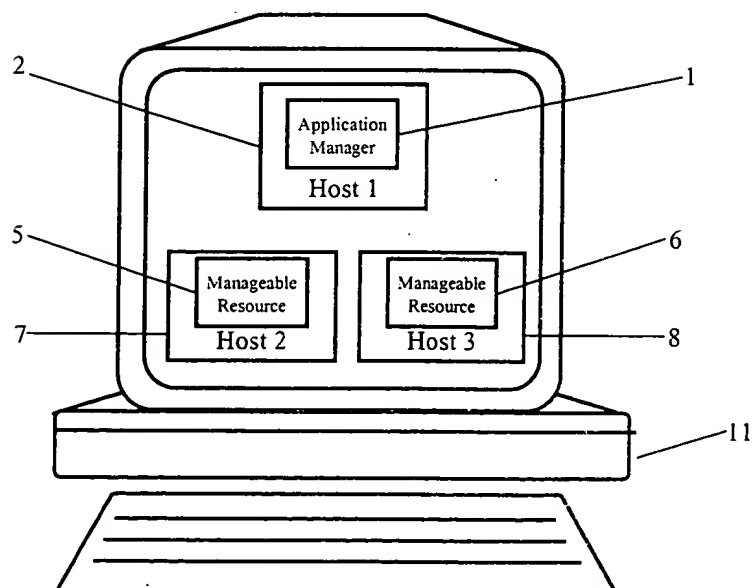

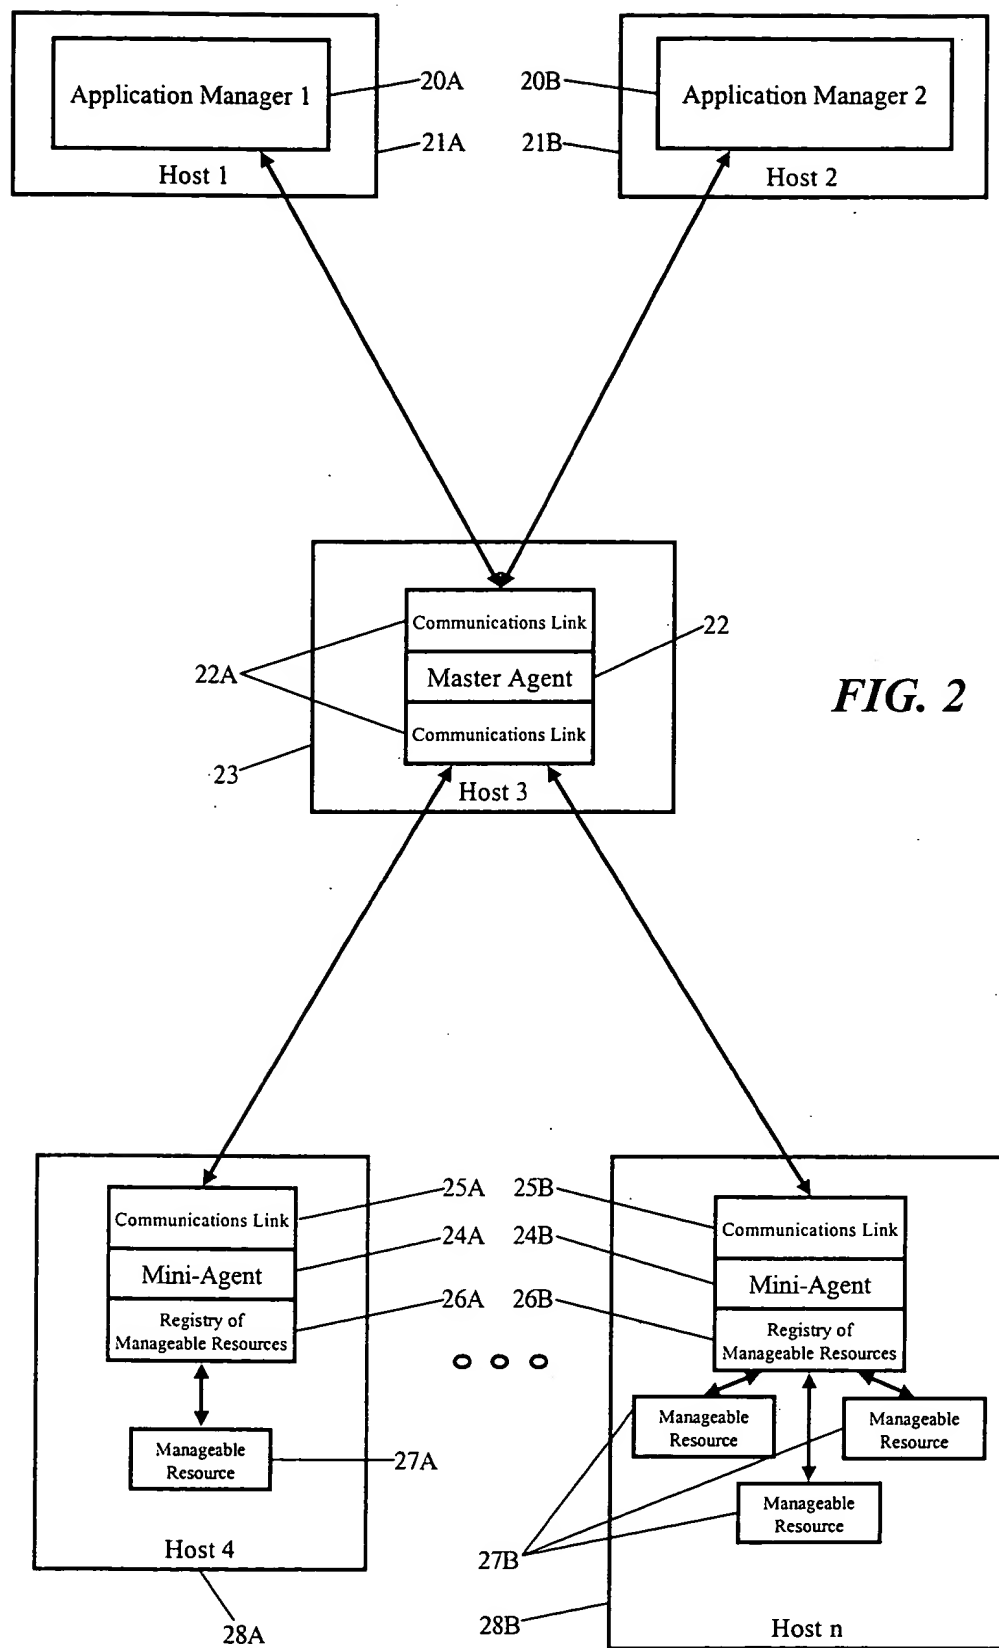

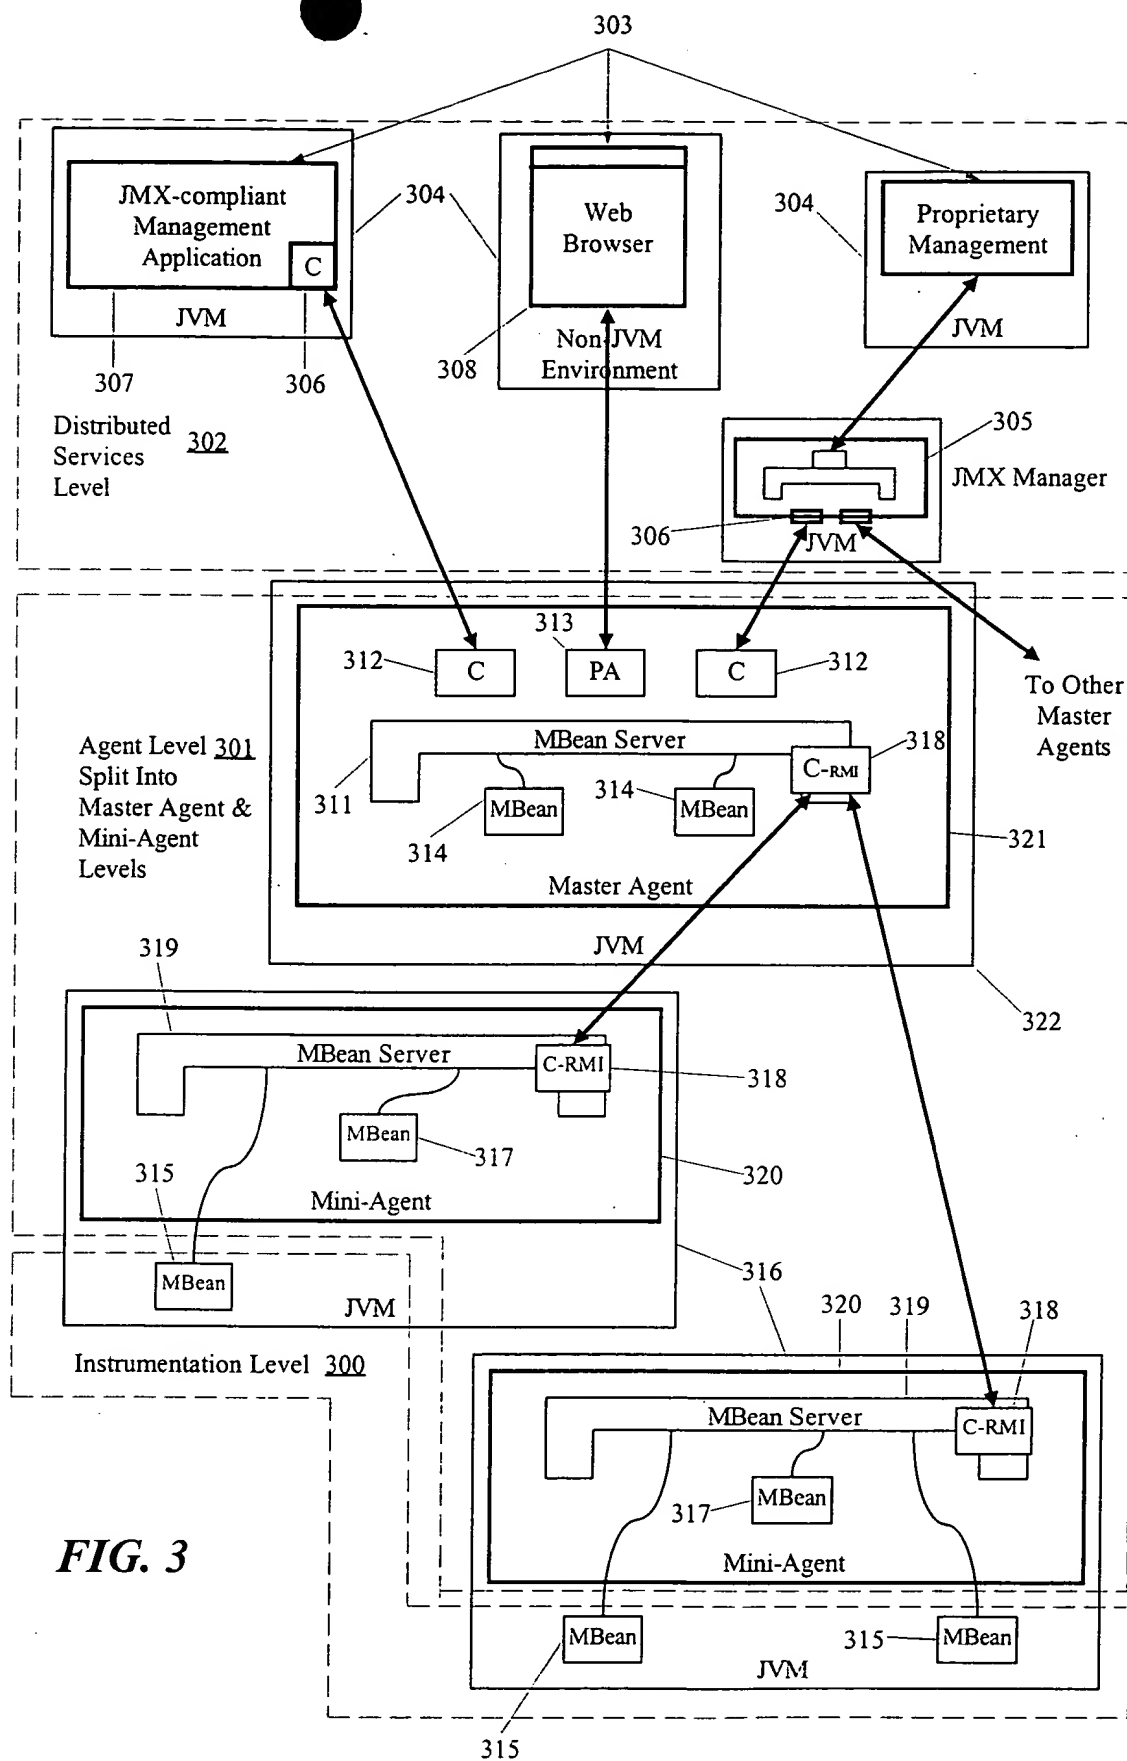

**FIG. 1A**

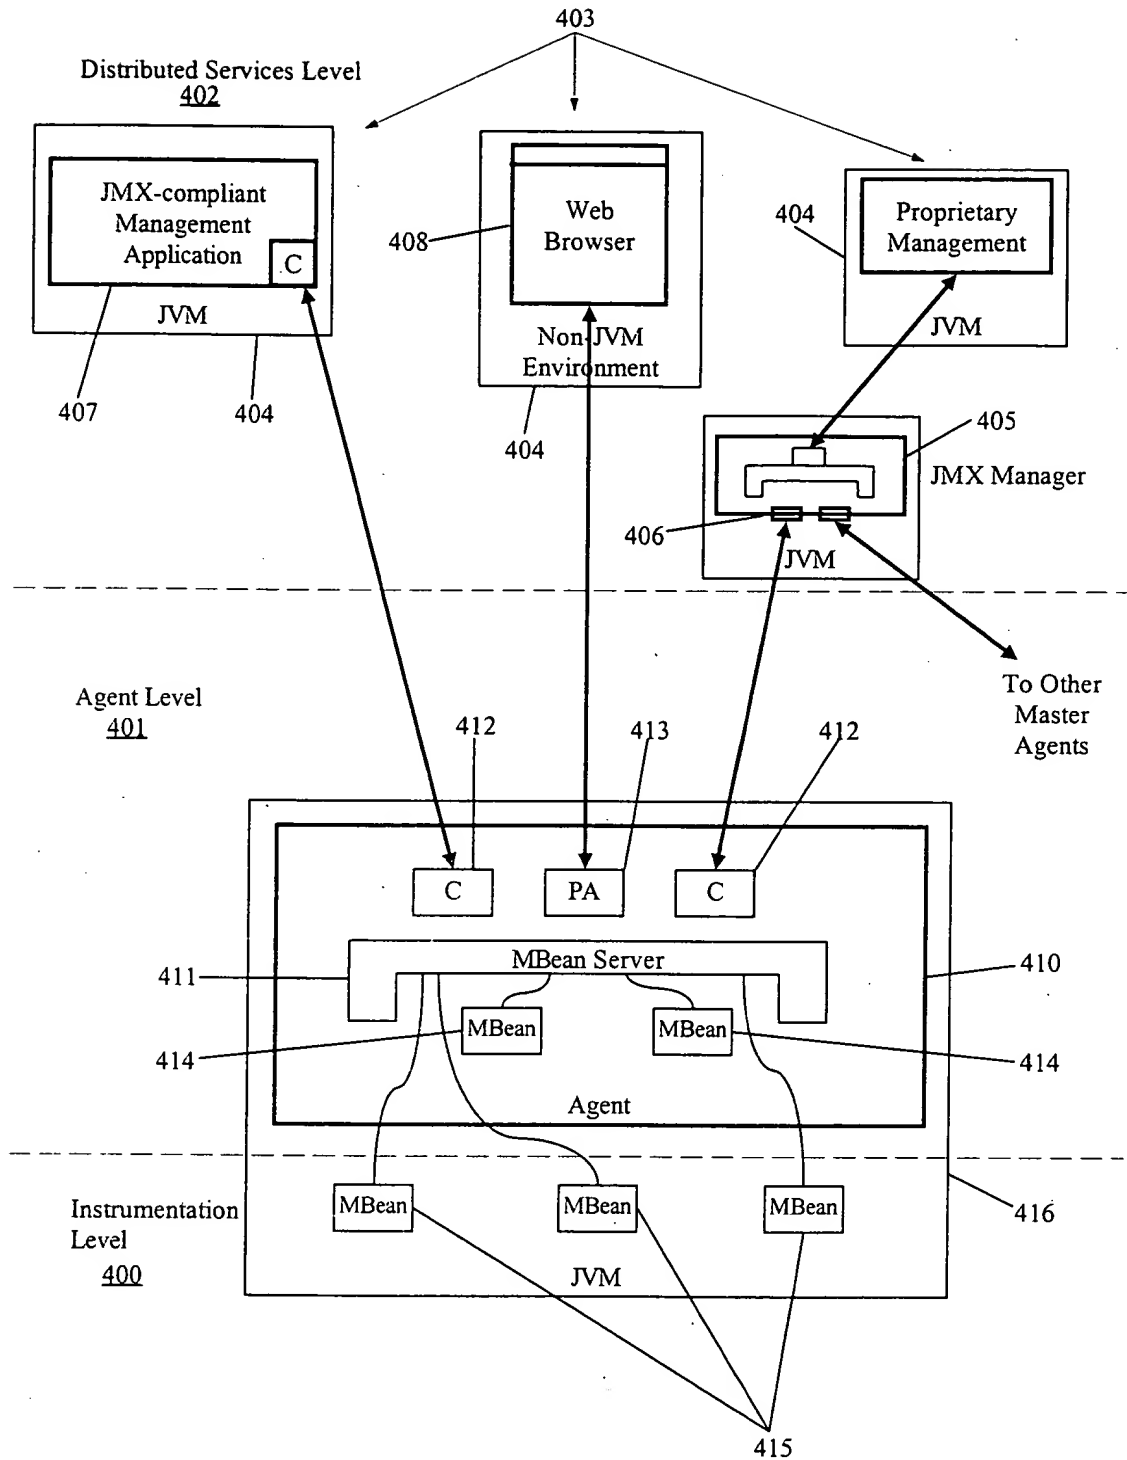

The diagram illustrates a networked system architecture. A central cloud, labeled **Network** (4), connects three hosts. **Host 1** (3) is positioned at the bottom center and contains an **Application Manager** (2). **Host 2** (9) is on the left and contains both an **Application Manager** (1) and a **Manageable Resource** (7). **Host 3** (10) is on the right and contains a **Manageable Resource** (8). The labels 1, 2, 3, 4, 7, 8, 9, and 10 are used as reference numerals for the various components.
